Tom was extremely helpful, quick to respond to text messages and voicemails, as well as accommodating to our needs and time as best as he could. We also really liked the way he handles his business. Texting the pictures of the dents before having him drive out to us was extremely efficient, he could easily tell us if the work could be done and gave us a fair estimate. The work was done quickly with the dents all removed. With Tom being friendly and professional, we will happily be referring him to others!

Robert C.	5	Well, I was skeptical, as you probably are too. I tried asking friends if they had any experience with paint less dent repair and no one did. I started by doing a google search and several companies appeared. The Dent Pro caught my attention because it had reviews, videos, Tom's insurance and business license information right there for me to see. I emailed Tom some pictures on a Friday and he came out on Monday. I had a small dent from a shopping cart. Tom worked on the dent for about 30 minutes and its gone. You can't see anything but straight sheet metal. I will be keeping his brochure and I hope I never need his services again, but he is the guy I'll be calling if I do. If you need a dent removed, you won't be disappointed with Tom Wilburn! I'm still in awe that he got the dent out. Thanks Tom !
Larry B.	5	Dent Pro (Tom) is very professional, courteous and kept a timely appointment. His repair on my 2013 Altima was better than I expected given the severity of a deer hit in the rear door. All aspects of the job were explained in detail prior to him starting and he made sure I was 100% satisfied with the repair. I'd easily recommend him.

Rodney T.	5	I was really impressed by the level of quality and professionalism that I received from Tom Wilburn. I had just recently purchased a 2015 Ford Escape, I was able to get a mark down on it because of a few minor dents on it. My wife didn't want me to buy it because of them. But I told her we could really use the Mark down. I wasn't sure if these dents would be easy to repair, but a friend told me about a guy who serviced his vehicle recently, Tom Wilburn,so I decided to give him a call. Tom came out that day to look at the dents, He gave me an estimate and we set up an appointment the next day.It was raining, So I didn't think Tom would come. To my surprise we pulled the vehicle in my garage and it only took Tom 1 hour to remove 3 dents. I was so happy with Tom and his work and the price that I will make sure that I Will refer him to all of my friends.
Mike E.	5	A vehicle's passenger side mirror left a black rubber streaked creased dent in driver side rear door of my Mazda CX-9. I searched the net for dent remover estimates. Tom P.	5	Tom came out to my house in the middle of a snowfall and flattened 4 dents in about half an hour. Fair price and excellent service. Would recommend to anyone needing dent repair.
Lavoria R.	5	My entire experience with Tom was superb. My husband called him to schedule an appointment and he came out about 2 days later in freezing temperatures. He called to advise when he was on his way. When he got to my home he explained the entire process of what I should expect. He was done within 30 minutes and I couldn't tell where the dent and scratches were. I highly recommend Tom's services.
Bill C.	5	After scratching my Ford Mustang's front fender, I wanted to get the best dent removal guy available. Like most people, I asked around in my circle of friends and was given Tom's name to contact. I called Tom and texted him several photos of the dent and he told me that he felt that he would be able to pull the dent out with no problem. Tom drove about 2 hours to meet me in Richmond. I found that Tom's ability to straighten out that fender was more than I had hoped for. The dent was removed in less than an hour and a half and even I am finding it tough to see where it was. If you have any dents, don't hesitate to call Tom. Good work!

Mike R.	5	I had taken my car to a repair shop for a dent in the front right quarter panel. They told me they could not repair it unless I spent \$1300 to fill it, sand it, and paint it. I called Tom because of his great reviews. He explained what his process was. He was able to come out to see me in only a few days. He was able to make the repairs for a fraction of the dealer cost, at my home, and in only a couple of hours. It looks like it was never damaged. I would recommend Tom to anyone!!

Heyward Agnes B.	5	<p>We were driving to Norfolk from Georgia when our new van was hit in the hood by road debris. The damage was in a difficult place to reach and on a curved portion of the hood. We needed the damage repaired but knew no one in this area to help. Our research for the best led us to Tom Wilburn and we called.</p> <p>Tom could not have been more accomodating and went far beyond our expectations - meeting us in a convenient location when it fit our schedule. Beyond this, he is most pleasing and kind and we are appreciative of the fact he is a veteran, as are we.</p> <p>His work is just amazing - beyond excellent. What was an ugly noticeable dent simply vanished under his tools and hands. His work ethic stunned us. As we watched him work we could tell he is driven to perfection, not just to be acceptable. When he finished our work one absolutely could not tell there was ever any damage. To state we are pleased is an understatement.</p> <p>Our experience with Tom is the way we wish all our business could be conducted. The Norfolk area has a true professional in its midst with The Dent Pro. He is not just a pro with dent removal but in his entire business model and ethic.</p> <p>Thank you so much Tom.</p>

I thought I was doomed to live with these dents in my aluminum hood but Tom quickly assessed the damage (caused by a recent storm) and went to work removing the dents. Within 45 minutes he had removed all dents without any damage to my 15 year old paint! Call Tom, he is a Paintless Dent removal (PRD) PRO! Five stars and highly recommended!

Rick A.	5	Great guy went out of his way to work on my car. Some ugly shopping card dings in the passenger door. Results exceeded my expectations and the cost was way way less than conventional body work. Even better was the fact that I did not have to give up my car for 3 or 4 days. They guy knows his business.
Nick R.	5	Tom came right out and worked quickly to remove dents from the door and front quarter panel of my new Toyota Avalon caused by hitting a traffic cone. When he was done, it was virtually impossible to tell there had ever been any damage.  It's obvious that Toms experience makes him a "go to guy" when you need dents removed. Definitely beats going to a body shop and loosing the use of your car for awhile...will use again without reservation.

Maurice B.	5	I recently bought a used car from a car dealer. Beautiful car but it had a couple dings in the passenger side door. When I questioned my sales person about fixing the dings before I purchased, he said we cannot do that for every car we sell because it would cost us too much money. I loved the car so I purchased it anyway. I went home and did all the research I could online about PDR (Paintless Dent Removal). After two hours of reviewing many sites, I chose Tom. I sent Tom pictures of the dings I wanted repaired. He immediately responded and provided me with costs and a time for service. He arrived on time, was very courteous and professional. Within forty-five minutes the repairs were done and the dings were gone! I was sold on PDR and Tom. When he left I told him he has a customer for life! Thanks Tom!

Chris H.	5	Tom is terrific at what he does and very professional. He came to my house on a Sat afternoon to remove three dents from my cars. I was unfamiliar with paintless dent removal prior to my experience with Tom, but now I am an advocate. The dents that he was able to work on look as good as new. His prices were very reasonable and very fair. I will definitely use him again when/if I have dent troubles.
Tracy V.	5	Tom is extremely professional, friendly and convenient. It was awesome that he came straight to my house. Not having to go to a Dealer or a body shop was important. I've been putting this small dent off in our car for over a year, simply because its not convenient to get it fixed. Tom set up a time to come that worked with our schedule after banking hour so that I didn't have to take off work. Tom removed the dent in less than 10 minutes. I had my husband go look at the car to check it out, he couldn't even tell where the dent used to be. Promise me, if you use Tom Wilburn, you will be pleased.

Chris M.	5	I noticed a dimple in the drivers door of my 2013 Ford Expedition a month ago. The vehicle only has 5000 miles on it and, although it bothered me every time I look at it, I figured it would be a big deal to repair it so I just let it go. Today I was picking up my wife's car and mentioned the damage to the dealer. She mentioned the type of repair Tom does so I gave him a call. I called Tom at 10:30 and described the damage. He said he was confident he could repair the damage and could be at my house by 1:30 the same day. Admittedly I was a little skeptical but was sold as soon as Tom arrived and very professionally explained the process he would use to make the repair. In less than 15 minutes I could not tell there was ever any damage. Tom was timely, very professional and did an excellent job. I would highly recommend him for this type of work.
Marcus N.	5	Tom is a unique guy, with a unique talent in a unique business. I have been riding around with an ugly dent in a otherwise nice truck for over a year, I assumed the only way to get it fixed was going to be at a body shop, the whole procedure of scheduling, drop off and collection led me to procrastinate in getting this done. Driving in Gloucester, I noticed Tom's Work vehicle with his name and phone number. I called him the following day and sent him a picture of the damaged area. He promptly replied with an estimate and suggested time to come to me and do the job that afternoon. He showed up promptly and did a professional first class job. He was very conscientious in his concern that I was completely satisfied, and yes I was. Would highly recommend his services
Charles B.	5	Mr. Wilburn is truly a trained professional. I am thoroughly amazed at the result. The finished work was unbelievable. Overall, efficient, timely, and convenient service. Highly recommended!

Adam R.	5	I sent Tom a text with some pictures of my damage after seeing the other reviews and some browsing on The Dent Pro website. He was prompt to respond and we worked out a ballpark time and day for him to come check out the dents. I had a small one on the hood, as well as a pretty nasty dented in scrape on my door. He showed up right on time and was very helpful in explaining the process and intended outcome. The dent on my hood came out perfectly and the one on the door, while still there, does now look much more acceptable than it did. Tom was very upfront about the difficulty of that particular dent and that the percentage of repair would not be too high.  Overall Tom 'The Dent Pro' was a pleasure to work with, got the job done quickly, and seemed like a honest, upstanding guy. I will not hesitate to bring any future work his way.
Brad A.	5	As someone who cares deeply about their vehicle, it killed me to see a fresh dent in the side of my truck. After a friends recommendation I called Tom. And the results were nothing short of phenomenal. About 30 minutes of work, and Tom was finished.  You can not see where the dent was, making the car look like new.  Give Tom a chance to make your car look like new, his work has my highest recommendation.

He literally took 4 dents out in no time, and the car is back to its immaculate shape. The man is a true wizard to this art, and would highly recommend him to anyone who needs dent repairing. The only problem was, I had two dents prior to the ladder incident....I only wish I hadn't waited so long to call!
Scott E.	5	Tom came to my office and did a great job on a dent in my rear quarter panel of my GMC Yukon. I was told by another provider it was not fixable because of the closed wheel wells. John E.	5	Tom took a few dents out of my girlfriend's Mazda 6. They were beyond what he would normally work on, but he was kind enough to give it a try for me anyway. His work came out excellent. My girlfriend is thrilled to have the dents removed from her car at a mere fraction of the price it would have cost at a body shop. Tom is very honest about his work and is well aware of his capabilities and limitations which makes him great to work with. If he's unable to fix something, he will let you know and he will explain why. Excellent experience and I would recommend him to anyone looking to have work done.

Martha W.	5	I visited Wynne Ford body shop in Hampton about 18 months ago regarding dings in my Rio5. After receiving an \$870 estimate to fix the car, this excellent lady at the shop recommended I save my money by contacting Tom Wilburn. She told me he had a process that was much less invasive and costly. I hung on to his card and during my 2012 Thanksgiving stay-cay called him in hopes of getting an appointment. Tom responded rapidly to my call, proceeded to my home, examined dings on both my Rio5 and F150, and provided an incredibly reasonable rate to fix both vehilces right then and there. He is a skilled technician, honest businessman, efficient, and courteous. I give him the highest recommendation for his work. I consider myself doubly blessed in this transaction by these honest inividuals. Merry Christmas and Happy New Year to all!

Tom came to our home exactly when scheduled and over the course of several hours, removed every single ding and dent from both of them. They now look like nothing ever happened.  Great work, quick service and right on time. Tom seems to be a very professional technician and I will certainly call him again when we need a ding or dent removed from any of our vehicles. I highly recommend his alternative to typical repair/repaint repairs when applicable.

Phil D.	5	After getting several dents in the hatch back of my one year old cross-over, I returned to the dealer to get their recommendations on repairing the dents. They indicated that they would only recommend one man to attempt the repair, Tom Wilburn. I contacted Tom and asked him about removing the dent. He told us that he was sure he could correct the problem, and we set up the appointment for the following week. Tom did just what he said he could do and removed the dents without any damage to the paint. My wife and I were very pleased with his work, and also the manner in which he ran his business. Tom is very professional in his approach, and his work is excellent. Hopefully we won't encounter another dent, but if we do, I know who we will call!
Bruce J.	5	I had a dent in my hood (dimple) and told Tom I was very particular and if I can see any traces of the dent after his work, I am really not interested. Tom commented, "You will not know the dent was even there and if you are not happy, you do not have to pay me." I was pleased to write the check and the dent is completely gone as he stated. Great Job! My hood is like new!!
Simon D.	5	I contacted Tom Wilburn because I was ready to sell my vehicle but before I advertised it I wanted to remove a sizable dent from one of the doors. I had been told by other people that this dent could not be removed in a painless manner. However, after Tom looked at it he said he thought he could remove the dent to about 95% success. I gave him the go ahead and returned in approximately one hour and had a hard time seeing where the dent used to be. Tom was very professional, and very efficient in the execution of the repair. I would recommend anyone with this kind of problem to contact Tom as he performed to a level of skill and expertise, not often found in today's world.
Robin B.	5	After my brand new car was dinged up in a parking lot, I was unsettled about a traditional repair process, as I did not want bondo on my new car and I knew the paint would never match (its 3-stage paint). So I called Tom to see if he could repair the 18" dent. Sure enough, he could and he did. In less than 2 hours, my car looked as good as new and my worries were gone! Tom was prompt, professional and clearly knows what he is doing! He turned a bad experience into a good result.. I could not be more happy with the repair. Thanks Tom :-)

When he was finished you couldn't tell it had happened at all. He was friendly and professional. Having small children I really appreciate them coming to me to fix my car. Pricing was very fair, and he actually charged me less than he quoted which I found very honest. I am sure I will need Tom at Mobile Auto Doctors again and will refer them to my friends!
Sandra C.	5	Mobile Auto Doctors - well what can I say. When I called Saturday I spoke to Tom. Very professional! He made an appointment for Sunday, gave me details about what he could do, and a reasonable price range. He was ON TIME, he did what HE SAID he'd do, and did I mention he loves dogs :) I highly recommend MAD. I hope I don't have need for this kind of service again, but if I do, I calling them back.
Susan S.	5	I am very happily writing this review to tell you that Mobile Auto Doctors are Wonderful, Hardworking and take Great Pride in their work. My 3 month old Prius had been dented by a few people that must not have cared about their own car in parking lots. Tom was able to get rid of the dents and you can't even tell where they were. Keep up the great work Tom.
